

ALUMNI ACTIVATION WEEKEND

Rejoin Community for a Purely Experiential Practice

PARK CITY, UTAH | JUNE 24-27, 2027

Back by popular demand, our ALUMNI ACTIVATIONS are a way to stay in your daily practice by learning new toolkits and mixing up the mirrored resonance with a dip back into community coherence.

This style of practice is celebratory and packed with BQ EXPERIENCE where we focus on unlocking your next level of intuition, visceral release, discernment, and self-reliance.

Module 1-3 gives us a lot of core philosophy to heighten our thinking and our outward relationships. This is an adventure to deepen your INNER relationship. ALUMNI WEEKENDS focus entirely on the body and how to PUT THE PHILOSOPHY INTO PRACTICE through shared synchronicity and communal experience. This lets us use our time together for rapid-fire healing work.

Alumni Weekends will NOT include a lot of lecture, (although some coursework will be unlocked before you arrive via on-demand video). Instead, our precious time together will be spent on the following BQ experiences:

Patterns + PEALS
Group pattern-tracking and healing ceremonies to PEAL off layers of old MESS for higher-frequency living.

Caminos
Walking Partnered Pilgrimage with new prompts and new partners to open a wider ear to synchronicity and mirroring.

Advanced Fractal Films
We will experience more layered sound technology and faster ways to induce an all-natural altered state.

Advanced Meditation + Breathwork Styles
We will clinic additional styles and aptitudes in breathwork for greater retention, activation, and INTUITION.

High Alpine Cold Plunges (optional)
Even if you do not want to plunge in the winter, come learn an early morning STANDING breathwork practice for invigorating your energy, intuition, and immune system.

All-Natural Altered State Art-Making (as meditation/divination tools)
This is a "slumber party" style of making customized meditation tools that peak into the next year of your future. We use both the abstract and the geometric to cause pareidolia that bridges time. These self-made art pieces are highly unique and highly useful. No previous art skills are required. (Come with levity and joy and zero judgment!)
